

BWS 175

*What is the ideal water for
perfect coffee & espresso?*

YOU DECIDE!

Excellent coffee beverages
must be carefully extracted.

Grind, temperature, pressures and
timing must be precisely managed.

BWS175 System Standard Features Include:

- Compact design for flexible installation
- Water storage tank (2.5, 5, 10 & 16 gal. sizes)
- High capacity prefilter protects membrane
- Integrated mineral-addition cartridge
- Precision Blend-Valve
- Remote-mount digital TDS monitor
- Emergency bypass valve
- Operates on water pressure (non-electric)
- Installation tubing and fittings

Now You Can Manage Your Water with The Same Precision!

The BWS175 system utilizes reverse osmosis to remove >97% of dissolved minerals from water, then specific minerals are dissolved into the pure water followed by a precision blend-valve enabling the user to further adjust the amount of mineral (TDS) in the water. The result is Optimized water with user-desired mineral characteristics that deliver consistent quality beverages and protect your equipment.

*Complete systems available with four water storage tank
choices to meet your specific demand requirements.*

MODEL	PART NO.	STORAGE TANK
BWS175/2	164-01602	2.5 gallon
BWS175/5	164-01605	5 gallon
BWS175/10	164-01610	10 gallon
