Snapshot

Great tasting water for water coolers, fountain drink applications and iced tea applications.

Cartridge Benefits

- WC-10, WCE-15 and WCE-20 IAPMO certified to NSF/ANSI standards 42 & 53.
- Reduces dirt, rust and other debris as small as 1-micron to assure clean, clear water and protect solenoids, valves and other fittings against wear and plugging.
- Activated carbon filtration makes water and beverages taste great by reducing chlorine off taste and odor.
- Protects drink system seals, pump, tubing and small orifices from clogging, corrosion and abrasive wear. Improves the quality and consistency of cold and hot beverages.

► Warranty

All system components and assembly except for filter cartridges, separation membranes, permeate pumps, electric motors, diaphragm pumps, and rotary vane pumps shall be warranted against defects in workmanship for a period of 60 months from the date of original shipment. For complete warranty information, contact OptiPure customer service or go to www.optipurewater.com.

It is recommended that pre/post-filters and mineral addition cartridges are changed every 6 months, when capacity is reached or when feedwater pressure or flow becomes inadequate.

Membrane life varies depending on feedwater conditions and pre-filter maintenance. It is 12-18 months under typical conditions, but it can be as long as 3-5 years.

This product is for commercial use only and must be installed and maintained according to manufacturer's guidelines.

Do not use on water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.
